Crear usuarios

The screenshot shows the Django administration interface in a web browser. The browser's address bar displays the URL `127.0.0.1:8000/admin/auth/user/add/`. The page title is "Django administration". The breadcrumb navigation path is "Home > Authentication and Authorization > Users > Add user".

On the left side, there is a sidebar menu. Under the "AUTHENTICATION AND AUTHORIZATION" section, "Groups" and "Users" are listed, both with a green plus icon and the word "Add". Under the "PELICULAS" section, "Proyectors" is listed with a green plus icon and the word "Add".

The main content area is titled "Add user". Below the title, it says: "First, enter a username and password. Then, you'll be able to edit more user options."

The form contains the following fields:

- Username:** A text input field containing the value "user". Below the field, a note states: "Required. 150 characters or fewer. Letters, digits and @/./+/-/_ only."
- Password:** A password input field showing six asterisks. Below the field, four password requirements are listed:
 - Your password can't be too similar to your other personal information.
 - Your password must contain at least 8 characters.
 - Your password can't be a commonly used password.
 - Your password can't be entirely numeric.
- Password confirmation:** A text input field showing six asterisks. Below the field, a note states: "Enter the same password as before, for verification."

At the bottom of the form, there are three buttons: "SAVE", "Save and add another", and "Save and continue editing".
